It is our mission at the United States Probation and Pretrial Services Office for the Western District of Missouri to facilitate the administration of justice, make our communities safer, and bring about long-term positive change in the individuals under supervision. We accomplish this by:

- addressing the needs of defendants and offenders through continuity of services and effective use of community resources.

Because we are committed to our mission, we are confident our vision will be fulfilled to exemplify the highest ideals and standards in community corrections.

The criminal justice system is a primary provider of mental health services in the United States. This could be an excellent opportunity for someone with a psychology background to make an impact on the community, or just to learn more about the criminal justice system and how it operates.

Thank You!
