Contact Person Mathew Gass, MSW, LCSW

Email Mathew.Gass@burrellcenter.com

Website address www.burrellcenter.com

Your Site

Description of the activities that occur at your site:

Psychiatric rehabilitation services are provided to adults with serious mental illnesses and co-occurring disorders through clinical, residential, community support, healthcare home and social rehabilitation service settings.

Description of practicum students' duties at your site:

Burrell-Transitions can offer training, supervision, the opportunity to observe and/or facilitate groups, review charts, participate in staff meetings, write progress notes and provide direct services depending on the student's training and skill level.

Type of population with which students would be working (e.g., adults, adolescents, children, physically challenged, cognitively challenged, etc.):

Burrell-Transitions serves transitional age youth and adults with serious mental health conditions from ages 16 through senior adult.

Our Students

Undergraduates

Our undergraduate students typically are juniors and seniors with 17-35 credit hours in Psychology. There are exceptions. If you have any special

requirements for students who apply at your practicum site, please describe them.

There would be opportunities for undergraduate students to gain foundation knowledge in psychiatric rehabilitative processes by accompanying community support specialists in structured treatment outings to: observe and practice behavioral coaching and modeling, motivational interviewing and rehabilitative skills with clients in the field. In addition the student would likely be able to observe psychoeducational groups, attend a psychiatry appointment with the client and work within the integrated behavioral health team.

Graduate Students

Our graduate students are students at the end of their first year or some time during their second year in the clinical track of our graduate psychology program. These students need direct service contact with clients, and also need weekly supervision from a licensed mental health professional. Is your site interested in working with our graduate students?

Yes, we are very interested in working with graduate students.

Hours, Pay, and Commitment

Days and time of days on which you need practicum students: Negotiable

Is this a paid practicum? Yes _____ No X

If yes, what is pay rate? _____

What length of commitment (e.g., semester, three months, six months), do you expect from the student?

This will depend on practicum setting, hours and tasks as negotiated between the student and field instructor.

Application Process

What is the preferred application process (e.g., email/mail resume/schedule an appointment)?

Applicants will need to complete a practicum application and submit this to humanresources@burrellcenter.com Once the completed application, stating that Transitions is the preferred setting is received, an interview appointment will be scheduled with the applicant to determine their practicum goals. Burrell

Transitions will work with the applicant to find an appropriate setting for the student to complete their practicum within our or notify them that their request could not be met. If the department didn't have a suitable vacancy or if the student's educational goal would better fit within another department we would communicate this with the Human Resources department and the suitable program's department head.

Please provide any other information that would be useful in helping our students to make more informed choices.

Transitions is an ideal setting for students seeking human service related degrees who have an interest in working with adults in an integrated setting. We serve a wide variety of clients in a broad continuum of services, so there are many different opportunities for students seeking practicum experience.

Thank You!

Revised December 29, 2017

Thank you for your help in working with our students.
