Website address  Mercy Clinic, Neuropsychology

Description of the activities that occur at your site

Cognitive testing/assessment, mental status assessment, personality assessment, supportive/educational intervention for individuals that have neurological or medical conditions.

Description of practicum students' duties at your site

Interviewing patients and completing brief evaluations. Observing/learning about various neuropsychological tests and assessment methods.

Type of population with which students would be working (e.g., adults, adolescents, children, physically challenged, cognitively challenged, etc.)

Ages of patients seen range from 5 years to 99 years of age. The majority of patients would be physically and cognitively challenged in some manner.

### Our Students

#### Graduate Students

Our graduate students are students at the end of their first year or some time during their second year in the clinical track of our graduate psychology program. These students need direct service contact with clients, and also need weekly supervision from a licensed mental health professional. Is your site interested in working with our graduate students?

Yes

### **Hours, Pay, and Commitment**

Days and time of days on which you need practicum students

Any week day/normal working hours (9-5)

Is this a paid practicum? Yes \_\_\_\_\_ No   X  

If yes, what is pay rate? \_\_\_\_\_

What length of commitment (e.g., semester, three months, **six months**), do you expect from the student?

Would prefer 6 months (one semester)

### **Application Process**

What is the preferred application process (e.g., email/mail resume/schedule an appointment)?

Contact by email/forward a resume/vita and then an interview appointment can be scheduled. Once the student is selected for the practicum they will need to work with the Human Resources Department to complete the application process and will need to attend a hospital one day orientation.

**Thank You!**
